OUR PROPOSAL

World Bank Bangladesh Experience

50 Years of Partnership

Bangladesh and the World Bank.

Bangladesh has an **inspiring story of growth** and development. From being one of the poorest nations at birth, today, **Bangladesh is one of the world's fastest growing economies**. It has reduced poverty in record time and achieved lower middle-income status within four decades.

Since independence, the World Bank has been a steadfast partner. The World Bank was among the first development partners of Bangladesh and in the last five decades, it has committed over **\$38.9 billion financing to help Bangladesh** achieve its growth and development aspirations. Currently, the World Bank is the country's largest development partner and **Bangladesh has the largest IDA program of the World Bank**.

Explore the timeline to learn about this extraordinary partnership and development journey.

DRAG TO EXPLORE

1979

First energy project approved

The IDA approved a \$28 million credit for the expansion of electric power distribution systems in the urban areas of Khulna district, which provided new connections to 33,000 new customers and upgraded another 20,000 connections.

Since then, World Bank support has added over 2,652 MW of electricity, including 181 MW through renewable energy sources. Another 310 MW capacity will be added to the national grid through ongoing grid-tied solar projects. The World Bank support covers the generation, transmission, and distribution of power, including from renewable energy sources.
